

## INSIGHT PIPE CONTRACTING IS IN YOUR NEIGHBORHOOD

Your neighborhood is making improvements to its sewer system and has chosen Insight Pipe Contracting to help them. Insight Pipe Contracting will be rehabilitating the sewer system to provide you with reliable service for years to come. In order to make these improvements your sewer system will be out of service on:

**3/7 - 3/17** 8:00 am - 4:00 pm

**Disruptions to you will be minimal but we need your help. We need you to limit your sewer use during the above period.**

**Specifically, please avoid:**

**Excessive toilet usage, Washing dishes, Showers and Baths and Washing clothes**

During the installation process, a resin-like odor may be detected. This odor is not harmful. The odor will dissipate with exposure to fresh air and there is no lasting effect. The technical information is available upon request from your Municipality.

Your cooperation is important to the success of the project. If you fail to observe these simple requests, water and sanitary sewage could back up into your home. Please be patient with the disruption. It will be short-lived and the improved sewers with the "no-dig" techniques are well worth the trouble.

Thank you for helping us improve your neighborhood! If you have questions or concerns please contact the Insight Pipe Contracting representative at \_\_\_\_\_ or the field crew in your area at the number listed below.
