RE: Sanitary Sewer Lining

Borough of Dormont Residents,

Your municipal authority has contracted Insight Pipe Contracting to rehabilitate sanitary sewers in the vicinity of your home or business.

This letter is a notice that representatives from Insight Pipe Contracting will be in your vicinity and possibly traversing your property accessing municipal manholes along the sewer right-of-way.

Lining rehabilitation will take place as follows:

4/21/2021:	Peermont Ave. from Eastmont Ave. to Beacon Hill Ave.
4/22/2021:	Dormont Pool Parking Lot
5/3/2021:	Scott Road from W. Liberty Ave. for 300 feet south on Scott Road
5/4/2021:	Dormont Ave. near Jett's Pizza

If you are immediately adjacent to the project area, a resident notice will be placed on your door. If you receive this notice, for this day during business hours, we ask that you limit your sewer use by avoiding excessive toilet usage, washing dishes, showers, baths, and laundry. This is to ensure that during the short time your sewer service is interrupted that you do not unintentionally cause a sewer backup in your home.

During the lining portion of the work, you may detect a resin odor in the air from lining process. The odor is not harmful and will dissipate as the work is completed. The technical information is available upon request from your municipality.

Any odor coming into your home would be a result of a dry sewer trap. The night before the scheduled work, pouring some water down infrequently used drains (floor drains, basement sinks, etc.) will help prevent this.

If you have any questions regarding this work, please contact:

On-site foreman: Clint G. - 412-812-7371

Project Manager: Jeremiah Pullinger – 412-807-9516

We thank you for your cooperation in this matter.
